Attachments: Talking Points Regarding ND Brine Spill-ss.docx

This might help provide some context with the document I sent earlier. I need to explain to Shaun and he in turn to the tribe what we do and what we respond to. Just providing the NCP text quotes is not clear enough for them to understand, so I'm trying to describe our response protocol without being overly specific or constraining, sending the message there is a lot of professional judgment involved.

Thanks for your help.
